

# Seniors Community Services

We are thrilled to share that our Senior School students have embarked on an incredible journey of collaboration and service during the last 10 blessed days of Ramadan. This year, we have had the honor of joining forces with Mashru3 Kher. Students participated in the preparation and packing of food for the ITAAM event, the dedication displayed by our students was truly remarkable. Students actively engaged in packaging and organizing meals for distribution. Their selflessness and attention to detail were evident as they prepared nutritious and delicious meals for those in need. On the same day, our seniors had the privilege of spending a memorable day at Elnasry orphanage in Mokattem. Our students, accompanied by Mashru3 Kher, AUC representatives, were greeted with warm smiles and open arms. The day commenced with a shared iftar meal, various activities for students and orphans, fostering lasting memories and valuable lessons in empathy and collaboration through community service.

## Autism Support at BISM

We aim to create a welcoming and inclusive space where every student feels valued and supported. By educating our community about autism and promoting empathy and acceptance, we hope to cultivate an environment where differences are celebrated and individual strengths are recognized. Through open communication, mutual respect, and a commitment to learning from one another, we believe that we can truly make a difference in the lives of all our students. Together, we can build a community where everyone thrives and where kindness and understanding are at the core of our interactions. By fostering empathy and compassion, we can cultivate a community that embraces diversity and celebrates the unique qualities of each individual. It is essential to educate ourselves and others about ASD to break down stereotypes and myths surrounding the disorder. BISM LDD team initiated a special campaign dedicated to Autism Awareness Day. This initiative aims to raise awareness about autism and promote inclusivity within our community.

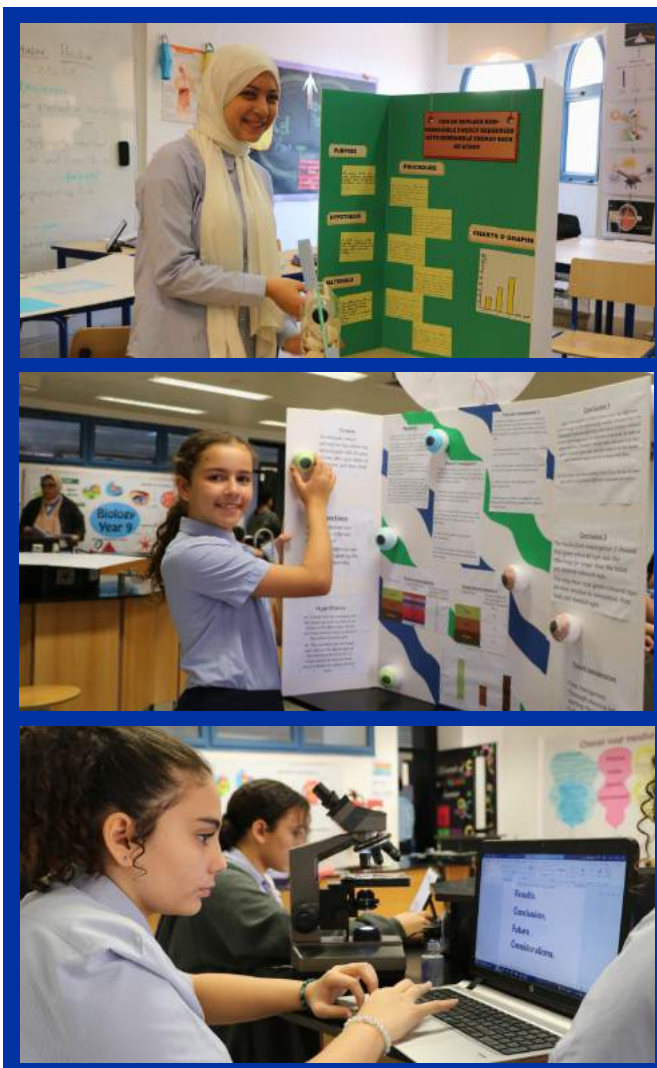

Our students engaged in open and honest conversations about autism spectrum disorder (ASD). They learned about the unique strengths and challenges that individuals on the spectrum may experience, and most importantly, they discovered practical ways to offer support and friendship to their peers. Autism Spectrum Disorder (ASD) is a developmental condition that affects social interaction, communication, and behaviour. Individuals with ASD may have different strengths and challenges, and each person is unique. By raising awareness and promoting understanding, we can create a more inclusive and supportive environment for everyone. As we continue to raise awareness and foster understanding, we encourage all members of our school community to join us in celebrating neurodiversity and supporting our friends on the autism spectrum. Together, we can create a learning environment where every individual feels accepted, understood, and empowered to thrive. Thank you for your continued support and participation in our efforts to promote inclusion and diversity at BISM.

## BISM Science Festival

Exciting news! Thrilled to announce EEP schools and their amazing students will be joining us for our Science Festival! With their participation, we're set to elevate the event to new heights! We look forward to seeing you at the BISM Science Festival on Thursday, April 18th. Let's celebrate the accomplishments of our young scientists together. Students will explore five themes: Environmental, Models and Inventions, Robotics and Architectures, Life Science, Chemistry, and Production. A thrilling science show will entertain EEP students with experiments & hall will be designed based on the themes provided.

### BISM Science Festival Schedule:

- The event starts with the Egyptian National Anthem at 9:00 AM.
- Welcome speech at 9:10 AM by Maged Raphael.
- Activities include throwback videos, speeches, and student presentations.
- Judgment sessions at 10:00 AM and 12:30 PM.
- Science Show at 11:30 AM.
- Award Ceremony at 2:00 PM, with expanded criteria for more student recognition.
