

PRIMARY TURNED PINK!

Exceptional support and enthusiasm were given by the whole of Primary to raise money for the secondary Cancer Awareness charity event. The classes and corridors glowed pink, as children and staff proudly wore their pink clothes. In addition, children also come into school laden with cakes, cookies, biscuits, friendship bracelets and many other 'bakes and makes' to sell.

And oh what a sale we had! Thank you to all the parents who supported this event by encouraging their child to bake and/or make, as well as ensuring they had extra money to spend at school to buy their choices of items for sale. Secondary students were also impressed with our products and happily brought from the primary sale.

Overall, a massive 19317LE was raised by primary children. As part of the remit of the Student Voice in primary, they will be canvassing ideas for charities that we will support in primary during the year, and we will then be having more events to support these. Well done Primary, what a great first charity day for this academic year!

STUDENT VOICE IN PRIMARY

We were delighted to launch our student voice, commencing with our elected student councils and class representatives. We discussed their roles, and they were excited to share some of their ideas to put into place. Their main discussions and ideas were how to enhance activities during break times and their suggestions were really thoughtful and interesting: different types of balls, basket balls hoops, jumping ropes, hula hoops, board games, painting areas, chalk areas etc. We will now take their ideas and start to work out a plan as what we can achieve and a timeline for this. Representatives were given the task to prepare a suggestion box in their classes and encourage their classmates to share any idea they have then bring the suggestion box with them to the next meeting. A great first meet!

STUDENT COUNCIL CHARITY AWARENESS MONTH

The goal of the BISM's Student Council is to develop projects and activities that will benefit our students, the school and the wider community. One of the aspect our student council focuses on is charity work. This month many activities have been held as part of our student council's first charity drive, of this academic year. Thursday's Cancer Awareness Day was part of this charity drive. It was a wonderful day in which, students and staff proudly wore pink clothes for a small donation of 10 LE. In addition, students in years 6 – 8 organised a bake sale at lunch time with all the proceeds going to charity. The day was rounded off with a wonderful presentation from the cancer organisation Bahiaa, in the end of week assembly for secondary.

STUDENT COUNCIL CHARITY AWARENESS MONTH

This year our student council thought it would be a perfect idea to invite primary students to be part of the cancer awareness day, they believed that if we worked together as a whole school, we could raise more funds for two very important cancer charities. It was fantastic to see almost every member of BISM wearing pink and what was more outstanding was the effort put into the primary bake sale, from both primary parents and students. Their hard work and enthusiasm raised a huge amount of money. The Head of Primary, Ms. Nicky Williams and three representatives were invited along to the secondary assembly to present the donation to the representatives from Bahiaa. The representatives from Bahiaa were extremely emotional as the three young members handed over the large donation, that had been raised by primary.

All the funds raised from secondary's charity drive, which includes; all of the bake sales, the ping pong competition, cancer awareness day and our upcoming Autumn Festival, will be donated to the 57357 children cancer hospital.
