FS2 SHOWCASE OF LEARNING

FFS2 students put on an amazing performance of “Showcase of learning” last Thursday! The audience was amazed at how our young students spoke in English so confidently and knew what to do and where to go on stage.

Students told facts about many countries, sang cultural songs and performed dances from their chosen country.

BISM believe that every child must learn the importance of setting boundaries from an early age. Healthy boundaries are a necessary part of self-care. Without boundaries, we can feel exhausted, exploited, taken for granted, or attacked. False boundaries can lead to resentment, hurt, anger, and burnout at work or in relationships. People with healthy boundaries can say “no” to others when they want to, but they are also comfortable opening themselves up to intimacy and close relationships. We have invited SAFE Egypt to visit BISM to help our children to know their self-worth and understand how to set boundaries and make a plan for what to do when someone isn't respecting their feelings or boundaries, SAFE Egypt encouraged students to practice standing up for themselves and reminded them to say NO to anyone crossing their boundaries.

SAFE Sessions "Set Your Boundaries"

Turkish Bazaar initiative to support earthquake victims

A group of Egyptian and Turkish ladies have rallied to stage a bazaar to raise funds to help the victims of the Turkey-Syria earthquake. The main member of the group is one of our parents! The event took place last Friday, February 24th at BISM's big hall. Visitors enjoyed some yummy Turkish desserts, delights, food and textiles. At the end of the day, visitors enjoyed some beautiful songs from the singer "Khaled found". Together we have raised 109390EGP at the end of the bazaar.
