

Celebrating 6th Of October Victory

Celebrating Armed Forces Day (6th of October Day) in BISM is a significant event, as Egypt has a rich military history and a strong tradition of honour, each student was proud to show respect for the Egyptian armed forces. It is important to show empathy towards the military personnel and their families, who have made great sacrifices for the country's security and stability. Egypt has demonstrated compassion and humanitarian efforts through its response to regional crises, and its ongoing support for keeping peace in Gaza.

It has been 50 years since the Egyptian army's marvellous victory in the 6th October war; a victory achieved by a courageous army to retain pride and dignity. Through great planning and strong belief in its own ability, the Egyptian army was able to conquer the enemy, cross the Barlev line which Israel claimed was impenetrable, and raise the Egyptian flag on the land of Sinai. On the Golden Jubilee anniversary of this victory, we were glad to have our children celebrate it in many different artistic ways, such as poetry, performances and patriotic songs. We were also delighted to host 2 heroes who witnessed the war Major General Dr. Mohamed Kashkoush and Major General Mr. Hamdy Labib Othman- and to have a musical performance by the Military band of the Egyptian Army. we had the pleasure of seeing parents joining the celebration and enjoying their children's performances.

Secondary Student Council & Seniors Kick off a Charity Week

We are thrilled to share with you the incredible collaboration between the Student Council and our senior students during the recent Charity Week. This week was a shining example of applying global citizenship and coming together as a school community to make a positive impact.

One of the highlights of the week was our "Wear Pink" day, where students and staff showed their support for cancer patients by wearing the color pink. It was heartwarming to see everyone united in their efforts to communicate their support and raise awareness for those battling this disease.

In addition, we had a special event to celebrate the achievements of individuals living with genetic conditions. It was a beautiful moment of recognition and appreciation for the strength and resilience of these individuals. We believe in celebrating our differences and fostering an inclusive environment where everyone feels supported and valued. The Student Council organized a "Wear Jeans" day, where students were encouraged to share the challenges that someone they know is going through. This activity provided a platform for empathy and understanding, as students came together to support and uplift each other during difficult times.

Furthermore, the Student Council took the initiative to support e-sports on campus for a good cause. By engaging in friendly competitions and tournaments, students not only had a great time but also contributed to a charitable cause. It was wonderful to witness our students combining their passions with acts of kindness.

We also promoted sustainability during Charity Week. Our locally baked pizza was available for purchase. By choosing a sustainable lifestyle and supporting local businesses, we demonstrated our commitment to both our community and the environment. To quench our thirst, homemade pink lemonade was also available for purchase. It was refreshing to see students enjoying a tasty treat while contributing to a worthy cause.

To conclude the week on a powerful note, we had the privilege of hosting an inspirational talk from a staff member who is a cancer survivor. Their story reminded us all of the strength and resilience that lies within us. It was a great chance to remember that we need to be in a community that stays away from judgements and appreciates all blessings.

We are proud to announce that through our collective efforts, we raised an astounding amount of 21,500 EGP. We extend our heartfelt gratitude to the Student Council, the seniors, and all the students and staff who actively participated in Charity Week. Your dedication, compassion, and generosity have made a significant difference in the lives of others. Together, we have exemplified the BISM's Jewels of Kindness and showcased the power of unity and support.

Looking forward to more collaborative projects in the future!

It's wonderful to see BISM turning pink supporting breast cancer awareness among students and staff! We are extremely proud of all students from primary and secondary school who represent compassion, empathy, and solidarity for those affected by the disease. By turning our school pink, students created a visual illustration of their commitment to the cause and showed their support for those affected by breast cancer. Thanks, everyone for making a great effort to make a positive change in the community.
