

# Enrichment for BISM students during half term

## Trip to Thailand

Our older students had the amazing opportunity to visit Thailand during the half term break. Not only was this a cultural visit but it also gave them the opportunity to bond together and share different experiences. During the 10 day trip they visited many of the most beautiful places in Phuket like Phi phi island and James bond island as well as the famous sky tower and unique markets in Bangkok. Students had a lifetime experience enjoying the exquisite nature and learning self dependance thousands of miles away from home.

# BISM

## INTERNSHIPS

An internship is a professional learning experience that offers meaningful, practical work related to a student's field of study or career interest. An internship gives a student the opportunity for career exploration and development, and to learn new skills. It offers the employer the opportunity to bring new ideas and energy into the workplace, develop talent and potentially build a pipeline for future full-time employees. Our students at BISM had the opportunity to spend the week at any of the following companies.

**TMG (Talaat Mostafa Group) – Technical Support & Network Services**  
**GEMS Marketing**  
**Aman – Network Security**  
**Kempinski – Hotels Operation**  
**QNB – Banking and Finance**

It was such a valuable experience.

# MUN delegates participated in EGIMUN

The MUN club members attended El Gouna International Model United Nations third Annual Conference at El Gouna city from February 26 to March 2nd. We engaged in heated debates, participated in thorough research and confidently spoke in front of our council members. In addition to that, we participated in various activities including beach cleanup, SDG hunt, and beachside activities. We also had an authentic Bedouin dinner at El Gouna Oasis. We, the BISM MUNers made many friends along the way. This trip helped us develop our research, debate, social and even critical thinking skills.

Written by: Aly Hasan, Year 9

EGIMUN was great fun and a new learning experience that had us all engaged.

EGIMUN had many debates which helped us enhance our debating skills and view various perspectives while having fun. There were also a couple of public speakers that taught us important life lessons which inspired us. We had some activities that were fun-based like the SDG hunt and workshops that gave us real life experiences. The EGIMUN was also an excellent place for all of us to socialize and get to know different people from around the country. Overall I think the EGIMUN was a great place to learn, improve, socialize and most importantly have fun. I would like to thank all the people who were involved in the making of EGIMUN as it was a great learning environment that inspired us all. The EGIMUN trip has forged unforgettable memories that will always be with us.
