

# STUDENT COUNCIL NEWSLETTER

What really makes us connect in BISM? Simply, doing anything together as a class or as a school will help build new friendships, strengthen our bonds together and create an amazing spirit . How to come together as a school and become a stronger community? Well, that's the student council's job!

Everything, from sports tournaments, fun activities, charity events to educational trips and survey designing is supported by our student council. We as a student council listen to the students' suggestions and opinions and make make them come true! We are simply their way of communication through the school.

## Student Council Meetings

The student council has regular meetings twice a week, to discuss what the students want more of, what went well so far and our next steps.

Class reps and Co-heads are involved in those meetings , so they can share what the class wants more of in school, then we work together to meet those expectations and plan fun activities.

# CHARITY WEEK

Bake sales , pink day and the table tennis tournament were all events the student council organized to raise money for charity.

Students had lots of fun baking and giving back to the community, as well as teachers. We raised more than 40,000 pounds!

The tennis tournament was a huge sports event, where everyone who enjoyed table tennis competed against each other for 10 L.E for charity, including teachers, older and younger students. It was exciting and fun cheering for everyone and anticipating who would win!

Who did you cheer for?

# PINK DAY

Who doesn't like pink?  
On Pink day, students wore pink to raise awareness for breast cancer, everyone donated money to help cancer patients. The day included a bake sale which had some amazing donuts!

A guest speaker from Baheya hospital was also a part of pink day, she talked to us about how to deal with a friend who might be sick and in pain and how to show empathy and be helpful.

# PARENT'S COFFEE MORNING

Of course, we invited the parents class reps for some coffee and a talk. listening to the parents about what went well so far, and what they want next from their perspective, was truly what we needed, because in the end we need to listen to both students and parents!

# AUTMUN FESTIVAL

What a way to start the fall! In celebration of autumn and Halloween, SC planned for the annual Autumn festival. Students had a bit of a break from school, all secondary gathered together for an amazing night with food, dancing, grip and climb and an escape room, everyone had a blast. All the money collected was also given to a charity. What an unforgettable night!

Everyone sang along with the amazing drummer and fabulous music, there was also a graffiti wall where students showed their artistic side

# CHILDREN CANCER HOSPITAL

Student Council and Class representatives at BISM also had an unforgettable experience at the childrens' cancer hospital where they donated all the money collected during charity week!

They got to learn about the inspiring story of the 57357 hospital and met the kids. They enjoyed giving them nice toys and playing with them !
