

**Our mission states: "Immersed in an inclusive culture that encourages us all to think innovatively as global citizens".**

## SUPPORT MOROCCO AND LIBYA INITIATIVE

BISM is always keen on empowering students to become global citizens and is always encouraging students to play a positive part in the community and the outer world. It was fantastic to see so many secondary students participating in our first charity event, "dress in red day". The secondary students raised 5865 LE donations + 1415 LE from the bake sale, which will be donated to help families in Morocco and Libya, who have been affected by the recent earthquake or hurricane. This event showed how empathetic and kind our students are, and how they are developing well as global citizens. We are looking forward to many more charity events.

Primary really does know how to 'Make A Difference'! This first fundraising initiative of the academic year really did have the full support of children, parents and staff who turned out in 'red' to support children and families affected by the catastrophic floods in Libya and earthquake in Morocco. They also supplied and supported a massive cake sale at breaktime, and in total over 22,000LE was raised by our primary community. Thank you to everyone for their participation, support and care of others in different countries to 'Make a Difference'. Early discussions are also underway as to how we can support children and families in Sudan affected by the conflict there, and I do ask for any ideas and suggestions to come through to me so we can target our 'Make a Difference' campaign during this coming year to support our multi-cultural BISM community. Well done Primary!

## Meet Our KS1 & 2 Class Representatives

We are thrilled to present to you the vibrant and enthusiastic members of our Primary Student Council! Comprising a diverse group of responsible and dedicated students, our council is eager to serve as the voice of the primary school community and make a positive impact on our school environment.

The Primary Student Council will actively organize or help to organize engaging events, promote community involvement and school spirit, and initiate projects that focus on enhancing the overall educational experience for all primary students. We believe that by fostering a sense of unity and collaboration, we can create an environment conducive to growth, learning, and personal development.

As the primary student body, your thoughts and suggestions matter to us. We encourage each and every one of you to approach your respective class representatives or any member of the council to share your ideas, concerns, or aspirations. Your feedback will be invaluable in helping us shape a brighter future for our primary school community.

In the coming months, you can expect exciting initiatives, workshops, fundraisers, and activities initiated by our Primary Student Council. We promise to keep you informed through regular updates in the school newspaper, notice boards, and social media platforms.

As we embark on this remarkable journey together, we invite all of you to join us in making our primary school experience truly exceptional. Let's work hand in hand, embracing unity, and building a stronger, more inclusive community.

## Meet Our KS3 Class Representatives

At BISM, we give students the skills they need to face the future. As part of our training to build up future leaders, students are encouraged to have a voice take decisions and to play a part in the students' leadership team. Students were encouraged to nominate themselves to be the class representatives where they were given the chance to present themselves in front of their class and, through elections, each form chose their leader, the class representative. We are very proud of our future leader.

## Unifrog Education Limited

Unifrog is a platform (site) that helps Y9-Y12 GEMS BISM students pursue their future careers. What is significant about Unifrog is that it brings all the available information about universities, courses, subject materials, MOOCs (Massive Open Online Courses), webinars, apprenticeships, and scholarships into one single, impartial, user-friendly platform that helps students make the best choices of subjects and then majors and submit the strongest applications to universities as well as their future jobs.

This platform has now grown to encompass universities in the UK, USA, Canada, Asia, as well as the Middle East and Egypt. In parallel, this platform has expanded its functionality to help both students and their school counsellors with the whole application process - from deciding on a subject area and writing application essays or teacher recommendations, to building an application and sending it.
